<b>Summary</b> B4A Collective exists to forge meaningful connections between passionate donors and impactful not for profit, grassroots organisations so that communities everywhere can flourish. Through assisting CHO's to curate and execute a fundraising plan and financial strategy, we can help them to build a case to apply for the necessary loans and grants. We have a seven stream fundraising model that allows not for profits the ability to sustain the good work that they are doing, beyond the life of a grant or sponsorship. As a Panel Member, we will be able to provide a strategic plan to diversify the income streams of CHO's in a way that is realistic to their capacity, robust in terms of financial revenue and sustainable so that they can continue to grow their services to those affected by a financial and housing crises.		
<b>Sector knowledge</b> Our knowledge of the sector has been through lived experience with the system which is why we are passionate about helping others to provide the means for affordable housing and social housing to become available. Where our knowledge and experience fall short, I do believe that through this process, I will continue to learn and understand more about the operating environment. We believe that through working with each organisation we will learn so much as they hold the expertise and knowledge that would allow us to grow. One thing I do know, is that fundraising and flourishing is all about relationships. This is the number one principle I teach my clients and leaders in the not for profit sector. As we have the ability to forge meaningful and authentic relationships, I believe that together, we can create a strong case for the growth and expansion of the necessary services that all of our prospective clients can provide.
